# Specifications

## • Lockers

Locker material made of Trespa® flat panel which is 30% thermosetting resins homogeneously reinforced with 70% cellulose fibers & manufactured under high pressure & temperature. The panels have an integrated, decorative surface made of melamine impregnated paper. Panel surface texture is quartz & has black core. Drilling & edging are done by a CNC machine & then polished.

Doors made of 13 mm Trespa® panels. Dividers, top & bottom are made 10 mm. Back of lockers is 5 mm.

Hinges are heavy duty nickel plated with 240 opening angel. Hinges are provided with catch & maintenance-free hardened steel axle. Hinges are sunk in the doors & height adjustable  $\pm 15$  mm.

## • Benches

Seating top and back are made of 13mm Trespa® strips. Frames tubes are made of chemically treated & powder coated steel. Adjustment feet are supplied in case of any unevenness of the floor.
